# Frequently Asked Questions for Event Organizers

## **Are you TSSA-certified?**

Absolutely. Safety is our top priority. All our mechanical rides and inflatables are TSSA-certified, and we maintain dedicated dossiers for every piece of equipment in our inventory. Our team always has these documents on-site and ready for inspection.

## **Do you carry liability insurance?**

Yes. We carry \$5 million in liability insurance. This allows us to work with the most demanding municipal, school board (including TDSB), and corporate requirements. We can provide a Certificate of Insurance (COI) naming your organization as additionally insured upon request.

## **What areas do you serve?**

We are an Ontario-wide company! While we're based in Utopia (near Barrie), we deliver, set up, and pick up our attractions anywhere in the province to ensure your festival or corporate day is a success.

## **What are the power requirements for a large event?**

Most inflatables require a standard 15-amp circuit. For large-scale events with multiple attractions, power can be the biggest hurdle. We can provide whisper-quiet generators if your venue doesn't have sufficient power on-site.

## **Do you provide staff to run the equipment?**

For TSSA-regulated items and high-ticket attractions, we provide trained, professional staff to ensure everything runs safely. For other items, we can either provide staff or train your volunteers—whatever fits your budget and safety needs best.

## **What is your weather policy?**

The safety of your guests comes first. If high winds or severe weather are forecasted, we'll work with you to reschedule or pivot to indoor options where possible. We monitor the weather closely leading up to every event.

## **How do we secure a date for a large festival?**

Because our flagship items (like the rockwall, trackless train, and massive obstacle courses) book up fast—especially for June and July—we recommend booking as early as possible. A deposit and a signed contract will lock in your date.
